Tables

Table 1 Publication Information from Different Data Sources.....	3
Table 2 Add Publication Fields.....	6

Add Publications

1. Move publication from pending to my publication.

to approve publications added by the administrator:

1. Go to

Publications menu> Pending tab

2. Select publications.
3. Click **Move to My Publication** button.

2. Add publication.

There are 3 ways to add a publication:

1. Import from Pubmed database.
2. Import from Google profile in google scholar.
3. Add publication manually.

Note: Not all information can be imported. Each data source can provide some information then you can complete the empty fields. Table 1 demonstrates all fields and data sources:

Remove Duplication

If you see this icon  it means that the system detected a similar publication to yours.

1. Click on the icon.
2. Confirm if the publications are the same or not.

If you click yes, the system will discard your publication and add your name to the other publication.

Note: before editing your publication and add more information to it, it's better to make sure that the publication is not duplicate.
